Summary

ECE undergraduate with a foundation in digital logic design and HDL coding (Verilog/VHDL), complemented by hands-on embedded systems and circuit-level project experience. Eager to build a career in VLSI and digital IC design.

Education

Jodhpur Institute of Engineering and Technology, Jodhpur

B.Tech in Electronics & Communication Engineering | CGPA: 8.81 (Till 4th Sem) | 2024–2028

Rajasthan Board

Senior Secondary (2023): 71% | Secondary (2021): 81%

Technical Skills

Languages: C, C++, Verilog, Python

VLSI/EDA Tools: Xilinx Vivado – basic exposure

Concepts: Digital Logic Design, Combinational & Sequential Circuits

Hardware & Platforms: ESP32, Arduino Uno/Nano, Ultrasonic Sensor, Relay Module

Projects

Voice-Controlled Home Automation

2025

ESP32, Voice Recognition Module, Relay

Smart home system controlling AC appliances via voice commands, using ESP32 with a voice recognition module and relay switching logic.

Laser Thief Detection System

2025

Arduino, LDR, Laser Module, Buzzer

Intrusion alarm triggered when a laser-LDR beam breaks, with threshold-based logic in Arduino IDE for real-time alerting.

BJT-Based Touch Sensor

2024

Analog Electronics, Transistor-Level Design

Touch-sensitive switching circuit built at the transistor level using BJTs, requiring no microcontroller.

Internships

VLSI Design and Verification Internship Program

Session 2026–27

JIET, Jodhpur | Duration: 4 Weeks

Robotics Software Program – ROS2

Session 2025–26

JIET, Jodhpur | Duration: 2 Weeks

Certifications

- **VLSI System-on-Chip Design** 18 Jul 2026
Maven Silicon
- **VLSI** 13 Jul 2026
Simplilearn
- **VLSI Design and Semiconductor Industry** 30–31 May 2026
ChipXpert Technologies
- **VLSI Design and Verification Internship Program** 23 May 2026
VLSI Insights
- **Soft Skill Development – Elite** Jan – Mar 2026
NPTEL, IIT Kharagpur
- **Enhancing Soft Skills & Personality – Elite Silver** Feb – Apr 2025
NPTEL, IIT Kanpur
